SUMMARY

I am an early career researcher focusing on the study of large-scale patterns of biodiversity and the ecological and evolutionary processes that shaped them. I am also interested in understanding how human pressures have affected and will affect the biodiversity in tropical regions. Throughout my career, I have gained extensive experience in the field of data science including data processing and visualisation, advanced statistical and spatial analysis. In my work, I particularly enjoy exploring and analysing biological data through visualisations tools.

EMPLOYMENT

2018– **Visitor scholar**, *University of Pittsburgh, Department of Biological Sciences*, Pittsburgh, PA 15260, United States of America.

PI: Prof. Justin Kitzes

Exploring signals of past spatial patterns to predict extinction risk of plants using time-series spatial point patterns from the Barro Colorado Island

2017– **NSF Postdoctoral Associate**, *Kenyon College, Department of Biology*, Gambier, OH 43022, United States of America.

PIs: Prof. Andrew Kerkhoff and Prof. Brian J Enquist

- Researching the consequences of climatic stability, biome age and area effects on seed plant diversity.
- Carrying out paleoclimate reconstructions using machine learning methods such as random forest to calibrate biogeographic biomes inferences.
- Co-teaching of the BSc course “Global Ecology and Biogeography” at Kenyon College.
- Taught and organized lectures and assignments for the Ecoinformatics skills course including Introduction to data science R, data managing and processing, data visualization, spatial analysis and reproducibility <https://globalecologybiogeography.github.io/Ecoinformatics/>

2017 **Lecturer and demonstrator**, *MSc Taxonomy and biodiversity, Methods in Macroecology and Macroevolution course, Natural History Museum (NHM) and Imperial College London*, London, UK.

Phylogenetic approaches to studying diversification; Fossils in phylogenetics

2013–2016 **Demonstrator**, *Computational Biostatistics BSc course, Ecology and Evolution BSc course, Biodiversity and Conservation Biology BSc course, Imperial College London*, London, UK.

Introduction to R, Fundamentals of statistics in R, Phylogeny of mammals and pines, IUCN Red List, Biodiversity among lineages and over time, Delimiting species, Extinction risk patterns and correlates.

- 2011–2012 **Science teacher**, *New Cambridge School, Gimnasio pontevedra school, and La Quinta del puente school*, Bucaramanga, Colombia.
- 2008–2010 **Teaching Assistant and demonstrator**, *Systematics BSc course, Universidad Industrial de Santander; Bioinformatics MSc course, Universidad Industrial de Santander*, Bucaramanga, Colombia.

EDUCATION

- 2013–2017 **PhD in Life Science**, *Imperial College London, Natural History Museum*, London, United Kingdom.

Thesis: Diversification patterns of *Solanum* L. (Solanaceae), plant macroecology and responses to land-use change.

Supervisor: Prof. Andy Purvis; Co-supervisor Dr Sandra Knapp

- Researched the dynamics of diversification of the megadiverse plant genus *Solanum* using a collation of geographical, genetic and taxonomic data along with phylogenetic comparative methods.
- Studied large-scale patterns of plant diversity and their responses to land-use change from data of a global collation of local field-based studies.
- Carried out large-scale evolutionary modelling exercise on a high-performance Linux cluster.

- 2012–2013 **MRes (Distinction), Biodiversity Informatics and Genomics**, *Imperial College London*, Silwood Park, United Kingdom.

- 2004–2010 **BSc (1st class honours) in Biology**, *Universidad Industrial de Santander*, Bucaramanga, Colombia.

COMPUTER SKILLS

OS	Linux/Unix, Windows, OS X
Programming	Proficient R, Basic Python, Basic C++, shell, basic HPC cluster scripts
Data Science	Data cleaning, processing and visualization, proficient GIS skills in R and ArcGIS, Advanced statistical analysis (e.g., Generalized Linear Mixed Models, Random Forests)
Version control	Git
Typography	L ^A T _E X, OpenOffice/LibreOffice

INTERNATIONAL CONFERENCE PRESENTATIONS

- 2018 **Presentation:** Echeverría-Londoño S, et al. Explosive diversification of *Solanum* L (Solanaceae) in the old world. **Three Rivers Evolution meeting**, Pittsburgh, Pennsylvania, USA
- 2018 **Poster:** Echeverría-Londoño S, et al. Plant functional diversity and the biogeography of biomes in North and South America. **Three Rivers Evolution meeting**, Pittsburgh, Pennsylvania, USA
- 2018 **Poster:** Echeverría-Londoño S, et al. Plant functional diversity and the biogeography of biomes in North and South America. **Botany 2018**, Rochester, Minnesota, USA
- 2016 **VVIP Presentation:** Echeverría-Londoño S, et al. Modelling and projecting the response of Colombian biodiversity to land-use change. **State visit by the President of Colombia, Juan Manuel Santos, to the UK and the Prince of Wales**. Natural History Museum, London, United Kingdom
- 2016 **Presentation:** Echeverría-Londoño S, et al. Modelling and projecting the response of Colombian biodiversity to land-use change. **First symposium of Colombian research in the UK**. Imperial College London, London, United Kingdom
- 2016 **Presentation:** Echeverría-Londoño S, Knapp S. & Purvis A. Explosive diversification of *Solanum* L (Solanaceae) in the old world. **BES macroecology meeting 2016**. Oxford University, Oxford, United Kingdom
- 2016 **Presentation:** Echeverría-Londoño S, Knapp S. & Purvis A. Diversification patterns of genus *Solanum*. **NHM students conference 2016**. Natural History Museum, London, United Kingdom
- 2015 **Poster:** Echeverría-Londoño S, Knapp S. & Purvis A. Explosive diversification of *Solanum* L (Solanaceae) in the old world. **Systematics: The Science that Underpins Biology. The Systematic Association Biennial meeting**, Oxford University, Oxford, United Kingdom

- 2015 **Presentation:** Echeverría-Londoño S, Knapp S. & Purvis A. Explosive diversification of *Solanum* L (Solanaceae) in the old world. **EU Macroecology meeting**. Zoological museum of Copenhagen, Copenhagen, Denmark
- 2015 **Poster:** Echeverría-Londoño S, Knapp S & Purvis A. Diversification patterns of *Solanum*. **NHM students conference 2015**. Natural History Museum, London, United Kingdom
- 2014 **Poster:** Echeverría-Londoño S, Knapp S & Purvis A. Diversification patterns of *Solanum*. **The London Evolutionary Research Network (LERN)**. Queen Mary University, London, United Kingdom
- 2014 **Poster:** Echeverría-Londoño S, Knapp S & Purvis A. Patterns of lineage diversification in the genus *Solanum* L. **Plants Radiation meeting**. Institute of Systematic Botany, University of Zürich, Switzerland
- 2013 **Presentation:** Echeverría-Londoño S, *et al.*, Modelling and projecting the responses of Colombian biodiversity to human impacts. **11th INTECOL Conference, Ecology**, London, United Kingdom
- 2010 **Presentation:** Echeverría-Londoño S & Miranda-Esquivel D. M. Panbiogeografía cuantitativa: un acercamiento geométrico. **III Congreso Colombiano de Zoología**. Medellín, Colombia
- 2009 **Presentation:** Miranda-Esquivel D. M, Echeverría-Londoño S. & Morales-Guerrero A. M. Todas las secuencias son iguales, pero unas son mas iguales que otras. **III Simposio red colombiana de Biología Evolutiva.-Colevol-** Cali, Colombia

INVITED SEMINARS

- 2018 Ecology and Evolution seminars, Department of Biological Sciences, University of Pittsburgh, USA.
- 2017 Department of Biology seminars, Kenyon College, USA.
- 2017 Ecosystems and Tropical Forest group lab seminar, School of Geography and the Environment, University of Oxford, UK.
- 2015 Ecology and Evolution seminar, Royal Botanic Garden Edinburgh, UK.

AWARDS AND RECOGNITIONS

- 2018 NSF grant fund “RCN-UBE Incubator: The Biological and Environmental Data Education Network”, \$ 72,361
- 2016 Selected to present research to the (Nobel Peace Prize winning) President of Colombia and His Royal Highness the Prince of Wales. Natural History Museum, London, UK
- 2013 Distinction in MRes in Biodiversity Informatics and Genomics. Imperial College London. Silwood Park Campus, UK
- 2004–2009 Academic Stimuli. First place (Highest GPA) in I, II, IV, IX semester. Academic program of Biology. Universidad Industrial de Santander, Bucaramanga, Colombia

RESEARCH SCHOLARSHIPS

- 2012-2016 Postgraduate scholarship. Administrative Department of Science, Technology and Innovation of Colombia (Colciencias). £122,000
- 2013 Training and travel grant. British Ecology Society (BES): £300
- 2013 Bursary. MRes in Biodiversity Informatics and Genomics. Imperial College London. Silwood Park Campus: £1,000

SCIENCE OUTREACH

- 2014 *Science Uncovered at the Natural History Museum*. Presented the PREDICT project (www.predicts.org.uk/): Projecting Responses of Ecological Diversity In Changing Terrestrial Systems, and also the Solanaceae source project www.solanaceaesource.org

NON-ACADEMIC SERVICES

2015–2016 Secretary. Latin American Society, Imperial College London, London, UK. Responsible for running the fresher-fair, writing minutes and organizing dance sessions.
